Use your FedEx door tag to track your delivery

Did you come home to a door tag? Usually a driver leaves a door tag because you weren't there for a delivery. Or maybe they couldn't find a secure place to leave your package. Whatever the reason, the first step is tracking down your shipment. Start by understanding your [door tag directions](#).

Look on your door tag for redelivery information. We may have already scheduled another delivery.

Scan your door tag's barcode on the [FedEx® Mobile app](#) for shipment information and delivery options.

LOCATE A PACKAGE

Get set for package redelivery or pickup

Now that you know where your package is, it's time to get it home.

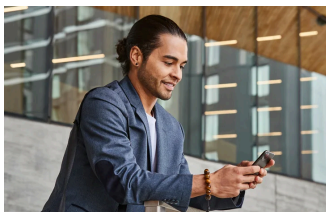

Authorize a next-business-day delivery—even if you won't be home

If your door tag says this was the first delivery attempt, your driver will mark when they'll try again. Just complete and sign the form on your FedEx door tag and leave it on your door.

Pick up your package at a nearby location

There may be a pickup location listed on your door tag. Please bring your door tag or tracking number and a government-issued photo ID. If the address on your ID doesn't match the label, you'll need to bring something with a matching address, like a utility bill or insurance card.

Request to redirect your package

You can request to redirect your package to a FedEx location and pick it up on your schedule. Choose from stores in your neighborhood, including FedEx Office, Walgreens, and Dollar General. This benefit is free if you're enrolled in FedEx Delivery Manager.

Understanding your door tag

- 1 See the delivery attempt date and redelivery directions. If your driver checked the “Final delivery attempt” box, your package is at a FedEx location. They’ll mark the “See back of tag” box if they have more information for you. You may learn why they couldn’t leave your package or where it’s waiting for pickup.
- 2 Decide how you want to locate your package. For example, you can scan the door tag number barcode to track your shipment. Find other ways to track your delivery.
- 3 If a signature is required for delivery, your driver will check the box. Sign the door tag. Then, put it back on the door, allowing the driver to redeliver your package.

A sample FedEx door tag form. At the top, it says "FedEx" and "We missed you." Below this, there are three numbered steps: 1. See the delivery attempt date and redelivery directions. 2. Choose an option to get details or make alternate arrangements. 3. If a signature is required for delivery, your driver will check the box. Sign the door tag. The form includes checkboxes for "We will make another attempt," "Must be present for package delivery," and "Final attempt." It also includes a section for "Door tag number" with a barcode and a "Signature" line. At the bottom, there is a signature line and a date field.
