Easily schedule an **on-call pickup** online

If you only ship occasionally, on-call pickups are a flexible option. You can schedule a pickup through the pickup application or while creating a label online.

Here's how to schedule an on-call pickup:

1

[Open an account](#) or [log in](#).

2

Create your [shipping label](#).

3

Complete the pickup request.

Already have a prepaid shipping label? You can schedule a pickup through our [guest pickup](#) scheduling without an account.

On-call parcel pickup

- Expedited service: pickups for expedited shipments can be scheduled for same day or next day pickup.
- Standard and economy services: schedule pickups for standard or economy shipments the next business day or up to 10 business days in advance.

Not going to be home for a pickup?

You don't have to be present for a FedEx pickup. But be sure to leave your package somewhere safe and accessible to the driver. Look for a FedEx door tag that confirms pickup and provides tracking information. If the driver determines your package can't be picked up, the [door tag](#) will explain why and tell you what to do next.

Did you miss a delivery, or prefer to pick up a package?

If you have a door tag that tells you to pick up your shipment, get [location details](#). To redirect a package that's already on its way, request to [hold it at a retail store](#).

Convenience is automatic with **automated pickups**

If you ship regularly, but not every day, consider using automated FedEx pickups. You won't have to schedule your pickups. We'll only come on the days you need us, saving you time and money.

You can schedule automated pickups for most FedEx parcel services. Automated pickups aren't available for freight shipments. [Get pricing information](#) or find out how to [cancel an existing pickup](#).

Automated FedEx parcel pickups

- You'll complete a one-time enrollment and setup process.
- You can use only one FedEx account number per single pickup location.
- We'll keep you informed of the scheduling status of your automated pickup with notifications.

To be eligible for automated pickups, you must use FedEx automation to process all shipments (either FedEx Ship Manager® at [fedex.com](#), FedEx Web Services, FedEx Ship Manager® Software, or FedEx Ship Manager® Server).

To schedule automated FedEx parcel pickups, connect with your FedEx account representative. If you don't have an account representative, [schedule a call](#) with us. Don't want to wait for a pickup? [Drop off your packages](#) at a retail location for free.

Rely on **regularly scheduled pickups** for ongoing shipping needs

If you're a daily shipper with a predictable shipping volume, regularly scheduled pickups could be the best fit. You don't have to call

or go online to schedule a FedEx pickup. We'll pick up your shipments every business day. You can schedule regularly scheduled pickups for FedEx parcel or freight shipments. [Get pricing information](#) or find out how to [cancel an existing pickup](#).

Regularly scheduled pickups

- For expedited and/or standard parcels, select the number of pickup days each week that best suits your needs. At least one package is expected per pickup.

To be eligible for recurring FedEx parcel pickups, you must use FedEx automation to process all shipments (either FedEx Ship Manager at fedex.com, FedEx Web Services, FedEx Ship Manager Software, or FedEx Ship Manager Server). Before your first pickup, you'll complete a one-time enrollment and setup process.

To schedule regularly scheduled FedEx parcel pickups, connect with your FedEx account representative. If you don't have an account representative, [schedule a call](#) with us.

Recurring freight pickups

If your shipments are over 150lbs., you can schedule regularly scheduled air freight pickups. They're free Monday through Friday.

To schedule regularly scheduled freight pickups, contact customer service at 1.800.GoFedEx (1.800.463.3339) and select 'express freight' for air freight service.
